91 Only one satellite radio station is displayed and playing with activated Tuner

Condition

REVISION HISTORY		
Revision	Date	Purpose
3	-	Revised Service (Added latest MMI Zug update)
2	11/10/2008	Revised Title to include Repair Group

Only one satellite station is available in the station list. Other stations can be selected consecutively with Scan in the Tuning submenu. However, only one station is always listed and audible.
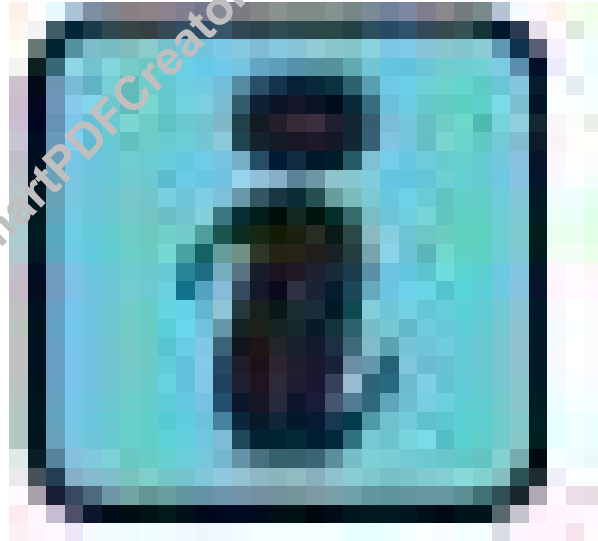

Technical Background

Due to a communication issue between the Sirius Satellite Tuner and Front Information Display Control Module J523, the complete station list is not transferred.

Production Solution

Software improvement.

Service

Do not replace the satellite tuner. A MMI system software update is required. Refer to Technical Service Bulletin 2019334 for directions to perform the update.

[i] Tip: Due to the incompatibility of Navigation DVD Version 4 and lower with the new MMI software, it may be necessary to replace the installed DVD with a Navigation DVD Version 5.
