A WORD ABOUT LOW ASPECT RATIO AND HIGH PERFORMANCE TIRES

High performance tires are designed for better performance and handling in warm climates. When driving in cold, snowy or icy weather, you should equip your vehicle with four all-season or winter tires, which offer better traction under those conditions.

We suggest you use the Audi recommended winter or all-season tires specified for your Audi.

High performance tires also have a lower aspect ratio that aids performance and handling.

Driving over rough or damaged road surfaces, as well as debris, curbs and other obstacles can cause serious damage to wheels, tires, vehicle body and suspension parts.

Be careful to avoid road hazards and reduce your speed, especially if your vehicle is equipped with low profile tires.

Please also remember when making your selection that, while these tires deliver responsive handling, they may ride less comfortably and make more noise than others. Finally, these tires may wear more quickly than other choices.

It is important that the inflation pressure is regularly checked and maintained at recommended levels.

For more information on all of these topics, please consult the owner's manual, your local dealer, or call 1-800-FOR-AUDI.

Audi exclusive Ordering Process

Special Paints

COLORS: - 80 colors pre-approved (6 to 8 weeks delay to be added to a standard factory build)
- Special requests: Paints from other Audi models, other Manufacturers (please contact the Audi exclusive Team to verify feasibility)

OMD WEB: 1.) Select exterior paint option Q0Q0
2.) Comment section: enter paint code and name (i.e. Z3F Garnet Red pearl effect)

VALUE: Option Q0Q0 is valued at \$3,900

MODELS: A5/S5: Additional delays are currently to be expected due to a large success of custom paints and the small capacity of the paint shops
Q5/SQ5: Start of production date TBD

Bespoke Interiors
