Further information

* All vehicles are tested according to WLTP technical procedures. Figures shown are for comparability purposes; only compare fuel consumption, CO2 and electric range figures with other vehicles tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles, vehicle load (and, for battery electric vehicles, the starting charge of the battery). Figures for plug-in hybrid vehicles were obtained using a combination of battery power and fuel. Figures for battery electric and plug-in hybrid vehicles were obtained after the battery had been fully charged. Battery electric and plug-in hybrid vehicles require mains electricity for charging. Zero emissions while driving. Figures quoted are subject to change due to ongoing approvals/changes and model range figures may include options not available in the UK. Please consult your local Audi Centre for further information. Data correct at April 2024.

Lithium-ion batteries, of the type used in most electric vehicles (including Audi electric vehicles) have a restricted lifespan. Battery capacity will reduce over time, with use and charging. Reduction in battery capacity will affect the performance of the vehicle, including the range achievable and is one of a number of factors that may impact resale value. New car performance figures (including battery capacity and range) may be provided for the purposes of comparison between vehicles. You should not rely on new car performance figures (including battery capacity and range), in relation to used vehicles with older batteries, as they will not reflect used vehicle performance in the real world. For further information on batteries and the Audi 8 year/100,000 mile new car battery warranty, please visit <https://www.audi.co.uk/uk/web/en/electric/faqs/battery.html> Exclusions and warranty terms apply.

When buying a new Q6 e-tron: All prices shown are Audi UK's Manufacturer Direct Price and may vary from time to time (this includes where there are changes in regulation and/or legislation). Vehicle is sold by Audi UK, a trading division of Volkswagen Group, United Kingdom Limited. Audi UK's Manufacturer Direct Price includes: delivery to retailer, number plates, new vehicle registration fee, the first year's Vehicle Excise Duty, any optional equipment, and VAT (calculated at 20%). There may be a delay in any price displaying correctly on our website and materials and it is always possible that, despite our best efforts, some vehicles may be incorrectly priced. Always obtain prices from your chosen Centre who act as agents on behalf of Audi UK.

When buying any other new Audi vehicle (excluding a Q6 e-tron): All prices listed are Audi UK's recommended On The Road (OTR) prices and may vary from time to time (this includes where there are changes in regulation and/or legislation). Audi UK's recommended OTR includes: delivery to retailer, number plates, new vehicle registration fee, the first year's Vehicle Excise Duty, any optional equipment, and VAT (calculated at 20%). There may be a delay in any price displaying correctly on our website and materials and it is always possible that, despite our best efforts, some vehicles may be incorrectly priced. Always obtain prices from your chosen Audi Centre.

Please check model availability and full specification details with your Audi Centre prior to ordering. Neither Audi nor Audi Partners can accept contractual responsibility for your reliance on the information contained in the Audi Configurator. The information on this page is relevant for new factory orders only and is accurate at time of publication. While we do our best to ensure that the information provided is accurate and up to date, we make no guarantee. In particular, while every effort is made to ensure that the specifications and equipment shown are correct at the time of publication, our products are being updated regularly and therefore the published specification is subject to change. Always confirm the details with your Audi Centre.

Written and visual depictions (including photographs) of vehicles, are for illustrative purposes only and should not be relied upon. Some illustrations may not accurately reflect UK specifications (including paint and trim colours) and may not be available. If in doubt always contact your local Audi Centre.

Performance figures and specifications relating to Audi vehicles are indicative only and performance cannot be guaranteed. Performance figures and specifications may be updated on this site from time to time, when new test results are available. Your local Audi Centre can always provide you with the most up-to-date information available.

When you purchase a vehicle or any vehicle maintenance services from an Audi Centre, your contract is always with the Centre and not with Audi UK. Any concerns you have in relation to the purchase of a vehicle should always be directed to your Audi Centre.
