A WORD ABOUT LOW ASPECT RATIO AND HIGH PERFORMANCE TIRES

Performance tires are designed for optimum performance and handling in warm clin They are not suitable for cold, snowy, or icy weather conditions. If you drive under the circumstances, you should equip your vehicle with <u>four</u> all-season or winter tires, whoffer better traction under those conditions. We suggest you use the recommended all-season tires specified for your car, or their equivalent. These high-performance to have a lower aspect ratio that aids performance and handling; however, in order to a rim or vehicle damage, it is important that the inflation pressure is regularly checked maintained at recommended levels. **Serious wheel and tire damage may occur if vehicle is operated on rough or damaged road surfaces or upon encountering debris or obstacles**. Please also remember in making your selection that, while the deliver responsive handling, they may ride less comfortably and make more noise the choices. Finally, these tires may wear more quickly than other choices.

For more information on all of these topics, please consult the owner's manual, your dealer, or call 1-800-FOR-AUDI.
