

Audi MMI 3G Voice Recognition commands

This form outlines all MMI 3G Voice Recognition (VR) commands currently available on the system.
A VR activity that may require multiple responses from the user is considered an "extended VR session".

Voice Prompt	Explanation	Begins extended VR session?
Global MMI Voice Commands		
Help	List VR help topics dependant on selected MMI mode	Y
Help Voice Recognition	List general VR help topics	Y
Help Navigation	Explanation of voice recognition commands for navigation	Y
Help Telephone	Explanation of voice recognition commands for telephone	Y
Help Directory	Explanation of voice recognition commands for directory	Y
Help Map	Explanation of voice recognition commands for map	Y
Navigation	Change system to <i>Navigation</i>	Y
Telephone	Change system to <i>Telephone</i>	Y
Directory	Change system to <i>Directory</i>	Y
Enter Destination	Begin navigation destination entry	Y
Navigate to <name> ¹	Navigate to a stored name in the directory using loaded address	Y
Cancel Route Guidance	Cancel active route guidance	N
Map	Change system to map screen	Y
Call <name> ²	Call a stored name in the directory	Y (if multiple numbers exist)
Dial Number ²	Begin phone number entry using single digits	Y
Redial ²	Redial last called number	Y
Radio	Select <i>Radio</i> audio source (specific to last used source)	N
Media	Select <i>Media</i> audio source (specific to last used source)	N
Cancel ³	Cancel current VR session	N
Voice Commands While in a List		
Next Page	Scroll display to next page in the list	Y
Previous Page	Scroll display to previous page in the list	Y
Last Page	Scroll display to last page in the list	Y
First Page	Scroll display to first page in the list	Y
<number>	Choose a line number corresponding to an item on screen	Y
Correction	Command the system to go back a step in the VR session	Y
Navigation Specific Voice Commands		
Enter Destination	Begin navigation destination entry	Y
Enter Country	Begin navigation destination entry via country selection	Y
Enter City	Begin navigation destination entry via city selection	Y
Enter Zip code	Begin navigation destination entry via zip code selection	Y
Enter Point of Interest	Begin navigation destination entry via point of interest	Y
Enter Special Destination	Begin navigation destination entry via point of interest	Y
Enter Street ⁴	Begin navigation destination entry via street selection	Y
Enter House Number ⁵	Begin navigation destination entry via house number	Y
Enter Intersection ⁴	Begin navigation destination entry via street intersection	Y
Enter Street in Vicinity	Begin navigation destination entry via street in vicinity	Y
Start Route Guidance	Start route guidance with currently selected destination	N
Cancel Route Guidance	Cancel active route guidance	N
Last Destinations	Display the list of previous navigation destinations	Y
Previous Destinations	Display the list of previous navigation destinations	Y
Favorites	Display the list of favorite destinations	Y
Map Specific Voice Commands		
Map	Display map	Y
Map Off	Return to enter destination screen from map	N
3D Map	Change map presentation to "Position 3D"	N
2D Map	Change map presentation to "Position 2D"	N
Day Map	Change map presentation to day	N
Night Map	Change map presentation to night	N
Overview Map ⁶	Change map to display entire route	N
Detail Map	Change map to 1/2mi (1km) zoom and "Position 2D"	N
Destination Map	Change map to display currently entered destination	N
Map Larger ⁸	Zoom in map scale one level	N
Map Smaller ⁸	Zoom out map scale one level	N
Scale <number> <meters/yards/mi/km> ⁸	Change map scale to spoken zoom level (within available scales)	N
Orientation in Direction of Travel ^{7,8}	Change map orientation to vehicle direction of travel	N
Orientation North ^{7,8}	Change map to orientation north	N
Orientation Automatic ^{7,8}	Change map to orientation north above 1mi (2.5km)	N
Additional Info ⁸	Turn on additional route info	N
Additional Info Off ⁸	Turn off additional route info	N
Zoom ⁸	Turn on intersection zoom	N
Zoom Off ⁸	Turn off intersection zoom	N

Route Specific Voice Commands		
Short Route ⁹	Change route guidance to short route	N
Fast Route ⁹	Change route guidance to fast route	N
Economical Route ⁹	Change route guidance to economical route	N
Route List ⁹	List turns/distances of selected route to destination	N
Voice Guidance	Turn on navigation voice guidance	N
Voice Guidance Off	Turn off navigation voice guidance	N
Complete Voice Guidance	Change navigation voice guidance to complete	N
Compact Voice Guidance	Change navigation voice guidance to compact	N

Point of Interest Specific Voice Commands		
Next Gas Station	Locate the nearest gas station	Y
I Need Gas	Locate the nearest gas station	Y
Next Diesel Gas Station	Locate the nearest diesel gas station	Y
I Need Diesel	Locate the nearest diesel gas station	Y
Next Parking Lot	Locate the nearest parking lot	Y
Where Can I Park	Locate the nearest parking lot	Y
Next Restaurant	Locate the nearest restaurant	Y
I'm Hungry	Locate the nearest restaurant	Y
Next Accommodation	Locate the nearest hotel	Y
I'm Tired	Locate the nearest hotel	Y
Next Hospital	Locate the nearest medical facility	Y
Next Audi Dealer	Locate the nearest Audi dealer	Y
Next Police Station	Locate the nearest police station	Y
Next ATM	Locate the nearest ATM	Y
I Need Money	Locate the nearest ATM	Y
I Need Cash	Locate the nearest ATM	Y
Next Coffee Shop	Locate the nearest coffee shop	Y
I Need Coffee	Locate the nearest coffee shop	Y

Phone Specific Voice Commands (Bluetooth Telephone must be connected)		
Dial	Call number present in phone number field	N
Dial Number	Begin phone number entry using single digits	Y
Redial	Redial last called number	N
Call <name>	Call a stored name in the directory	Y, if entry has multiple numbers
Received Calls	Displays "received calls" list	Y
Dialed Numbers	Displays "dialed numbers" list	Y
Delete	Delete a previously entered number that exists in the speller	Y
Missed Calls	Displays "missed calls" list	Y

Directory Specific Voice Commands		
Navigate to <name> ¹	Navigate to a stored name in the directory using loaded address	Y
Call <name> ²	Call a stored name in the directory	Y, if entry has multiple numbers
Find Entry	Begins voice tag search of directory entries	Y
Call Cell ^{2,10}	Call cell phone number in current entry	N
Call Land Line ^{2,10}	Call land line phone number in current entry	N
Call Private Number ^{2,10}	Call private phone number in current entry	N
Call Business Number ^{2,10}	Call business phone number in current entry	N
Navigate to Private Address ^{1,10}	Navigates to private address in current entry	Y
Navigate to Business Address ^{1,10}	Navigates to business address in current entry	Y
Store Name ¹⁰	Overwrites current voice tag with user created tag in current entry	Y
Read Name ¹⁰	Reads voice tag (user and system) for current entry	N

Notes

¹ Address must be present and validated in entry for feature to function.

² Bluetooth Telephone must be connected.

³ If the system is expecting a street, city, name, etc, the cancel command cannot be used. Press and hold VR button to end session.

⁴ Limits search area to currently selected city. If no city selected, user is prompted for city selection.

⁵ Limits search area to currently selected street. If no street selected, user is prompted for street selection.

⁶ Only changes to entire route if route guidance is active. If no route guidance selected, map changes to Position 2D.

⁷ Only available in Position 2D map mode.

⁸ Must be activated while map is displayed.

⁹ Active route guidance must be present.

¹⁰ Command must be executed while inside a directory entry.
