Has as much in common with art as it does performance.

The Audi A5 is a study in the art of nuance. Nuance, of course, with a decidedly assertive side. The A5 creates a dominating presence with its low, wide stance and its muscular proportions. A closer look reveals meticulous attention has been paid to exterior design details, like the impactful, long-life LED daytime running lights and taillights, the distinctive singleframe® grille and the LED turn signals seamlessly integrated into the sideview mirrors. The Audi A5 is a flawless execution of what a coupe should be. A fact not lost on AUTOMOBILE Magazine, as the A5 received the prestigious 2009 AUTOMOBILE Magazine Design of the Year award.
Designed around the most important component.

The Audi A5 makes the driver central to everything. Starting with a comfortable, driver-oriented cockpit and naturally placed MMI controls, the A5 interior ensures that convenience and comfort are always within reach. With a high-mounted 6.5" full-color MMI screen, the Audi A5 creates a seamless integration between intuitive functionality and sublime luxury. The impeccable fit and finish incorporate the finest materials by way of the optional Milano leather heated seats with driver side memory.
Never comfortable with "good enough," Audi set out to do something extraordinary: build an engine more powerful while at the same time making it more efficient. That's exactly what FSI® technology unleashes. The 3.2-liter V6 FSI® engine delivers 265 hp while achieving a reputable 26 MPG* highway. Also available is the renowned 2.0-liter TFSI® engine, which produces a pulse-quickening 211 hp with a best-in-class 30 MPG† highway. In other words, producing the power of a six-cylinder while offering the efficiency of a four-cylinder. This is progress you can feel.

Progress means fast alone is not enough.

*Audi A5 3.2 Premium Plus: EPA estimate: 17/26 city/highway MPG. †EPA estimate: 22/30 city/highway MPG. Your mileage will vary.
This notion of superb performance
perfectly executed.

The ability of the A5 to create the perfect driving experience is traced to a few distinct elements found only in an Audi. The legendary control of quattro® all-wheel drive is the first in a list of dominating performance features. This latest generation of quattro® offers a rear torque bias of 40:60, ensuring true sports coupe handling. The five-link front and trapezoidal-link rear suspension optimize wheel placement, whether driving in a normal fashion or more assertively. With the available S line Sport Package and the included 20” wheels, handling is stiffer, offering an exceptionally sporty ride.

The optional Audi drive select provides the ultimate in handling customization with up to 27 different combinations of vehicle performance settings. Audi drive select allows the driver a choice of four distinct modes, ranging from the performance-oriented Dynamic setting to the more pliant ride of Comfort. The handling of the Audi A5 is further enhanced with Servotronic® speed-sensitive steering, which automatically scales steering input based on the vehicle’s speed, helping ensure optimum performance regardless of the situation.
Start by eliminating boundaries, and it’s quite likely you will wind up with something like the Audi A5 interior. It offers a number of features that add a new dimension to luxury. And it all starts with the MMI® operating system. As the nerve center of the Audi A5, the MMI® enables the driver to easily control and customize a number of features. For instance, you can plan your route thanks to the available integrated MMI® navigation system. The available voice control feature, activated via the multifunction steering wheel, allows control of everything from the radio and iPod® to your Bluetooth®-enabled phone. Even adjustments to Audi drive select can be made through the MMI® operating system.

Luxury is also having access to advanced technological innovation that helps keep you out of harm’s way. For instance, driver assist programs, like Audi side assist, alert the driver to vehicles in the driver’s blind spot. And adaptive cruise control, when activated, automatically decelerates or even applies the brakes if the Audi A5 approaches cars within the driver’s preset distance.
The power of innovation
is the power of technology.

Countless performance innovations are found in nearly every aspect of the Audi A5. We are never content until these innovations change the way you experience the road. Take the Audi valvelift system, for instance. By optimizing air intake and exhaust valving, peak performance is ensured throughout the powerband. The result is an engine that delivers high levels of torque essential for responsive acceleration at all times. With the available 3.2 liter FSI® V6 producing 243 lb-ft. of torque, the valvelift system increases fuel efficiency*. And with the standard 2.0 liter TFSI®, the system adds an exceptional 258 lb-ft. of torque for immediate acceleration. Couple that with quattro® all-wheel drive, and you experience the perfect combination of enhanced traction and handling with state-of-the-art power.

*Audi estimate: 17/26 city/highway MPG. Your mileage will vary.
Audi has always held firm the belief that prevention is the best safety feature of all. And the Audi A5 offers an abundance of features designed to help keep you out of harm’s way. For instance, one unique feature of the Audi A5 is the Electronic Stabilization Program (ESP®). It helps keep the A5 traveling in its intended direction by utilizing ABS, the traction control of ASR and the electronic brake force distribution of EBD. Another innovative feature is brake disc wiping. The system gently pulses the brake to dissipate water build-up, keeping the brake discs as dry as possible, allowing for quicker, more effective braking.

Additionally, the Brake Assist system comes into play when an emergency situation is encountered. A sensor instantly detects the attempt at full braking and transmits a signal summoning full brake pressure from the hydraulic booster. The advantage: Braking distance is significantly reduced.

And when prevention isn’t enough, the extremely rigid steel body acts as one of the primary safety systems of the Audi A5, creating an ultra-high-strength cocoon for the occupants. Finally, occupants are offered even more protection by way of six standard airbags.*

* Airbags are supplemental restraints only and will not deploy under all crash circumstances. Always use safety belts and seat children in the rear, using restraint systems appropriate for their size and age. 

We thought of you, which means we’ve thought of everything.
The nemesis of compromise.

From the moment the signature LED Daytime Running Lights spring to life, the message becomes clear: The S5 is designed and built for luxury and speed. A pure coupe through and through, the S5 embodies every detail of the exceptionally designed A5. Continued with a series of sport-inspired elements, like quad-tip exhaust, Aluminum Optic mirrors and blades, the S5 enhances its classic proportions with a wide stance that emphases its stature as the pinnacle of performance coupes.
The interior of the Audi S5 is just what you would expect after seeing the performance-enhanced exterior. Special Silk Nappa leather S5 sport seats feature integrated headrests and pronounced side bolsters for more assertive driving. And available Carbon Fiber accents are tastefully integrated throughout, reinforcing an unwavering commitment to performance.

A worthy sequel to a striking exterior.
The Audi S5 offers enhancements that make it a coupe singularly focused on total performance. It all starts with a high-revving 4.2 liter V8 FSI® engine effortlessly churning out 354 hp and 325 lb-ft of torque, making it capable of reaching 60 MPH from a standing start in just 4.9 seconds.

With no shortage of power, the S5 has handling to match – integrated lightweight aluminum suspension components reduce unsprung weight and increase rigidity, offering a more responsive driving experience. Its potential is fully realized with standard 19” wheels and summer performance tires* designed for precise handling. When it comes to performance, the Audi S5 is all about exceeding expectations.

Performance in all of the right places.

The Audi S5 offers enhancements that make it a coupe singularly focused on total performance. It all starts with a high-revving 4.2 liter V8 FSI® engine effortlessly churning out 354 hp and 325 lb-ft of torque, making it capable of reaching 60 MPH from a standing start in just 4.9 seconds.

* See page 34 for important safety information regarding summer performance tires.
What would it be like to have a sports coupe that handles like a sportscar and has the traction and directional stability of all-wheel drive? Quite simply, that is the Audi S5. With the latest generation of quattro® with Sport Rear Differential, the S5 offers unrivalled performance driving with a 60 percent distribution of torque to the rear wheels. At the same time, torque varies between the outside rear wheels for improved cornering. The quattro® all-wheel drive system responds instantaneously and does not require you to engage it. It is always on, providing enhanced driver confidence. These innovations give the S5 handling that has to be experienced to be believed.
1. Leather seating surfaces | Aside from offering superior quality and design, the leather seating surfaces offer pronounced shoulder and side support.

2. 18” ten-spoke wheels with 245/40 all-season tires | The ten-spoke alloy wheels’ progressive design is matched to the dynamic elegance of the A5 model. The lightweight alloy complements the excellent driving dynamics.

3. Auto climate control | The climate is easily controlled through the center console, while a light sensor on the dashboard adjusts the system based on the sun’s intensity.

4. Audi concert radio with ten speakers and SIRIUS® Satellite Radio | Audi concert radio features the Audi Sound System with 180 watts of power and ten total speakers, including two in each door, a subwoofer and a center fill speaker. It also offers a CD player, auxiliary input and an SD® card slot with MP3 capability. The Radio Data System (RDS) on the color screen displays several types of FM radio information, as well as SIRIUS® Satellite Radio information. And the Graduated Audio Level Adjustment (GALA) helps ensure optimal volume levels as cabin noise increases with speed.

Features listed are standard on the Premium model unless otherwise noted. *FEATURE NOT SHOWN*
4. Leather-wrapped, three-spoke, multifunction steering wheel. The leather-wrapped, three-spoke design has a sporty look and feel. The multifunction steering wheel provides easy access to Bluetooth®-enabled phone, audio volume and seek functions.

5. Power adjustable, heated exterior mirrors with integrated LED turn signals. The exterior rearview mirrors are electronically adjustable, heated to help prevent fogging and house the integrated LED turn signals.

6. Split folding 50/50 rear seatbacks. Rear seats can be folded together or individually for increased flexibility and space. When the rear seats are folded, a full pass-through from the trunk is available. When unfolded, the rear seats comfortably accommodate two adults.

+ Power front seats with driver lumbar support. The power front seats allow the driver and passenger to electronically adjust the seats’ forward/backward position, height, angle of seat cushion and seatback and the driver’s lumbar support.

+ Halogen headlights with daytime running lights. Halogen headlights help enhance safety by illuminating a wider section of the road.

Features listed are standard on the Premium model unless otherwise noted.
1. Audi xenon plus headlights with LED daytime running lights
   These headlights produce about twice as much light as comparable halogen headlights and help make night driving, particularly in poor weather, less tiring for the driver’s eyes with improved visibility. LED daytime running lights also consume less energy than conventional daytime running lights.

2. LED taillights
   LED lights are superior to conventional bulbs with their activation speed and their long service life. They can last an entire vehicle lifetime, consume up to 50 percent less energy and take up less space.

3. HomeLink® and Bluetooth®
   HomeLink® is integrated into the overhead controls and uses a simple three-button system that can control garage doors, gates and even lights in the home. The Bluetooth®-hands-free phone interface allows the pairing of a Bluetooth®-enabled mobile phone with the vehicle, and includes access to the phonebook within the driver information display of the instrument panel. For specific compatibility and operation, refer to audiusa.com/bluetooth or contact your local Audi dealer for the latest listing of compatible phones.

4. Audi music interface
   The Audi music interface offers intelligent integration with the iPod®. Any iPod® Generation 4 and higher [iPod®, iPod® nano, iPod® photo] may be connected through the glove box, and full iPod® controls are available through the MMI® screen.

5. Heated front seats
   The multilevel seat heating system is designed to heat the entire surface of the seat; warming is initiated with a convenient button.

6. Three-zone automatic climate control
   Both driver and front passenger, as well as the occupants of the rear seats, can select their required temperature and distribution of air individually for their particular seating area.

Features listed are standard on the Premium Plus model unless otherwise noted.

FEATURES NOT SHOWN
5. Bang & Olufsen® Sound System | This unrivaled sound system combines state-of-the-art technologies that include Digital Signal Processing (DSP) and ICEpower digital amplification with a detailed study of the Audi interior. More than a sound system built into a car, the system is the ultimate driving and listening experience, a virtual concert hall on wheels.

6. Audi MMI® navigation plus | Audi MMI® navigation plus features a 7" full-color LCD screen and MMI® control logic. The Audi A5 comes equipped with the latest generation of MMI®, powered by a 40-GB hard drive and an NVIDIA® processor to enhance graphics. This generation of MMI® offers 3D topography, including the buildings in many cities. A color driver information system, real-time traffic, and navigation through audible route guidance and graphics are included.

7. Audi advanced key | With Audi advanced key, the car can be unlocked and started without removing the key from a pocket or purse. The steering can be released and the ignition turned on electronically, all without inserting the key into the ignition.

Memory for driver seat and outside mirrors | With the touch of a button, the advanced memory system automatically adjusts the seat’s forward/backward position, height, lumbar support, angle of seat cushion and seatback and outside mirror settings based on the key that is being used.

Features listed are standard on the Prestige model unless otherwise noted.
A5 Packages

1. Sport seats
   The sport seats offer greater lateral support, thanks to more prominent side sections. The seat functions include electric lumbar support for both front seats and are accented by leather upholstery with perforated Alcantara® inserts and contrast Silver stitching.

2. S line steering wheel
   The S line Package includes a multifunction, three-spoke, leather-covered steering wheel with contrast-color stitching and the S line badge. On vehicles equipped with automatic transmissions, the steering wheel includes shift paddles for quick, driver-selected gear changes.

3. Brushed Aluminum inlays from quattro® Gmbh
   S line interior touches are anchored with Brushed Aluminum inlays throughout the cockpit and extend into the rear, including door sill inlays with the S line badge. These contrast with an elegant Black headliner that matches the interior.

4. 19” five-Y-spoke wheels with 255/35 summer performance tires
   The 19” five-Y-spoke wheel option adds an athletic feel. The progressive design is matched to the dynamic elegance of the A5.

A5 S line Package

Available on A5 Prestige only

1. Audi side assist
   Audi side assist system helps monitor the blind spot areas when changing lanes, as well as fast-approaching vehicles, at a range of about 150 ft. to the rear of the car. If Audi side assist identifies another vehicle, it informs the driver via LED lights in the exterior mirror.

A5 Driver Assist Package

Available on A5 Prestige only

1. Sport suspension
   For those who plan to drive in a more sporty fashion, the S line Package includes a firmer suspension. The new five-link front and trapezoidal-link rear suspension has been specially sport-tuned to perform without sacrificing passenger comfort.
5. Audi MMI® Navigation plus | Audi MMI® Navigation plus features a 7" full-color LCD screen and MMI® control logic. The Audi A5 comes equipped with the latest generation of MMI®, powered by a 40-GB hard drive and an NVIDIA® processor to enhance graphics. This generation of MMI® offers 3D topography, including the buildings in many cities. A color driver information system, real-time traffic, and navigation through audible route guidance and graphics are included.

6. Audi parking system | The rearview camera offers a real-time view of the rear parking area, while the rear ultrasonic parking sensors measure the distance to the nearest object.

- Voice control | Included with the navigation system are five language settings and a voice control system that can be used to operate the most important navigation, radio and hands-free mobile phone functions by speaking the necessary commands.

- Eight-color LCD driver information display | Conveniently located in the instrument panel, this user-friendly interface includes radio, telephone and navigation data, as well as information on the current operating status, which monitors the condition of vehicle components.

A5 Navigation plus Package
Available on A5 Premium Plus and Prestige only

A5 Sport Package
Available on A5 Premium Plus and Prestige only

7. 19" five-Y-spoke wheels with 255/35 summer performance tires | The 19" five-Y-spoke wheel option adds an athletic feel. The progressive design is matched to the dynamic elegance of the A5.

8. Sport seats | The sport seats offer greater lateral support thanks to more prominent side bolsters. The seat functions include electric lumbar support for both front seats, extendable thigh support and electric head restraint.

- Sport suspension | For those who plan to drive in a more sporty fashion, the Sport Package includes a firmer suspension. The new five-link front and trapezoidal-link rear suspension has been specially sport-tuned to perform without sacrificing passenger comfort.

- Shift paddles | Models equipped with the Sport Package receive shift paddles on the three-spoke steering wheel that allow effortless, race-inspired gear shifting and keep the driver’s hands on the steering wheel. (Available with Tiptronic® automatic transmission only)

A5 Packages

*See page 34 for important safety information regarding summer performance tires.

**Feature not shown**
1. **Bang & Olufsen® Sound System** | The Bang & Olufsen® Sound System includes 14 speakers with 505 digitally amplified watts and surround sound reproduction. Microphone-based noise compensation ensures optimum sound under varying road conditions and speeds.  
   [Option on Premium Plus only]

2. **Audi drive select** | Audi drive select controls the vehicle’s adaptive suspension, dynamic steering, transmission shift characteristics and engine response. The system offers four distinct drive configurations: Comfort, Automatic, Dynamic and Individual.  
   [Option on Prestige only]

3. **Genuine Milano leather seats** | This leather option offers a particularly soft and supple texture that ensures a luxuriously comfortable ride.  
   [Option on Premium Plus and Prestige only]
A5 | S5 Accessories

4. Front spoiler with blade insert | An Audi-designed styling component creates a dynamic lowered appearance with a front spoiler and blade. [Available on A5 only]

5. Rear spoiler | A trunk lip spoiler adds a distinctive sporty flair to your A5/S5.

6. Rear diffuser with blade insert | This Audi-designed styling component adds an aggressive edge to the A5. [Available on A5 only]

7. 19" five-arm hollow spoke wheels | Aside from being extremely lightweight, these alloy wheels feature wide spokes that create a dramatic look, whether parked or in motion. [Available on A5 only]

8. Rear diffuser with blade insert | This Audi-designed styling component adds an aggressive edge to the A5. [Available on A5 only]

9. 19" 15-spoke wheels | These wheels make a strong statement with an eye-catching design. All of our alloy wheels are specially engineered to meet the strict tolerances of our Audi original wheels.

10. Upright Barracuda® bicycle holder | This bike holder fits 20-80 mm bike frames and is easy to use. It features a molded front wheel well that allows the bike to stand on its own as you easily secure the bike. Lock included. [Must be used in combination with the base carrier bars, which are sold separately]

11. Ski and snowboard rack | This rack’s rubber-cushioned aluminum bars hold securely. Push-button keyed locks open and close easily. Our smaller standard attachment holds up to four skis or two snowboards. A larger deluxe attachment holds up to six skis or four snowboards. [Must be used in combination with the base carrier bars, which are sold separately]

12. Polished grille strips | The polished grille strips accent the distinctive Audi singleframe® grille. Strips attach to the grille with OEM-grade adhesive for long-lasting durability.

Dressed for performance.

Your Audi is just that – yours. With a number of available enhancements, including wheels and a special aerodynamic spoiler, your Audi can become your own signature model.
1. Shift paddles  
Shift paddles allow effortless, race-inspired gear shifting and keep the driver’s hands on the steering wheel. (Available with Tiptronic® automatic transmission only)

2. S5 sport seats  
The unique sport seats offered on the S5 provide greater lateral support thanks to more prominent side bolsters. The seat functions include electric lumbar support for both seats and integrated head restraints. The use of high-quality Silk Nappa leather in the interior of the S5 adds to the elegant, dynamic and sporty driving experience.

3. Audi music interface  
The Audi music interface offers intelligent integration with the iPod®. Any iPod® Generation 4 and higher (iPod®, iPod® nano, iPod® photo) may be connected through the glove box, and full iPod® controls are available through the MMI® screen.

4. Dual exhaust quad tailpipes  
Unique quad oval tailpipes create a rich exhaust note and leave no doubt about the power contained under the hood of the S5.

+ Brushed Aluminum inlays  
The quality of materials and craftsmanship of the S5 interior is highlighted by elegant and sporty Brushed Aluminum decorative inlays extending across the dash and doors.

+ 19" five-double-spoke wheels with 255/35 summer performance tires*  
The 19" five-double-spoke wheel option is impressive in its stance and design. The wheels come equipped with summer performance tires, which provide improved driving dynamics and superior handling and performance.

Features listed are standard on the Premium Plus model unless otherwise noted. *See page 34 for important safety information regarding summer performance tires. **Feature not shown.
5. Bang & Olufsen® Sound System | The Bang & Olufsen® Sound System includes 14 speakers with 505 digitally amplified watts and surround sound reproduction. Microphone-based noise compensation ensures optimum sound under varying road conditions and speeds.

6. Audi advanced key | With Audi advanced key, the car can be unlocked and started without removing the key from a pocket or purse. The steering can be released and the ignition turned on electronically, all without inserting the key into the ignition.

+  Audi MMI® Navigation plus | Audi MMI® Navigation plus features a 7" full-color LCD screen and MMI® control logic. The Audi S5 comes equipped with the latest generation of MMI®, powered by a 40-GB hard drive and an NVIDIA® processor to enhance graphics. This generation of MMI® offers 3D topography, including the buildings in many cities. A color driver information system, real-time traffic, and navigation through audible route guidance and graphics are included.

+ Voice control | Included with the navigation system are five language settings and a voice control system that can be used to operate the most important navigation, radio and hands-free mobile phone functions by speaking the necessary commands.

Features listed are standard on the Prestige model unless otherwise noted.

* FEATURE NOT SHOWN*
S5 Options

1. Carbon Fiber inlays | The Carbon Fiber decorative inlays accent the overall interior excellence of the S5.

2. 19” five-tri-spoke wheels with 255/35 summer performance tires | A work of art, these wheels make a dramatic and sporty statement regardless of whether they are moving or motionless.

3. Audi adaptive cruise control | Adaptive cruise control monitors distance to the vehicle in front via radar sensors and automatically reduces speed, as well as resumes speed to maintain the driver-selected safe distance.

4. Stainless Steel inlays | The quality of materials and craftsmanship of the S5 interior is highlighted by sophisticated Stainless Steel decorative inlays extending across the dash and doors.

5. quattro® with Sport Rear Differential | quattro® with Sport Rear Differential dynamically varies torque between the rear wheels for enhanced cornering agility.

S5 Audi Drive Select Package

Available on S5 Prestige only

Audi drive select | Audi drive select controls the vehicle’s adaptive suspension, dynamic steering, quattro® with Sport Rear Differential, transmission shift characteristics and engine response. The system offers four distinct drive configurations: Comfort, Automatic, Dynamic and Individual.

quattro® with Sport Rear Differential | quattro® with Sport Rear Differential dynamically varies torque between the rear wheels for enhanced cornering agility.

* Summer performance tires are designed for optimum performance and handling in warm climates. They are not suitable for cold, snowy or icy weather conditions. If you drive under those circumstances, you should equip your vehicle with all-season or winter tires, which offer better traction under those conditions. We suggest you use the recommended summer performance tires for your vehicle. Your vehicle may also have lower aspect ratios that aid performance and handling. However, in order to avoid tire, rim or vehicle damage, it is important that the inflation pressure is regularly checked and maintained at recommended levels. Serious wheel and tire damage may occur if the vehicle is operated on rough or damaged road surface, or open encountering road debris or obstacles. Please also remember in making your selection that, while these tires deliver responsive handling, they may ride less comfortably and make more noise than other choices. These tires also may wear more quickly than other choices. For more information on all of these topics, please consult the owner’s manual, your local dealer or call 1-800-FOR-AUDI.
Summer performance tires are designed for optimum performance and handling in warm climates. They are not suitable for cold, snowy or icy weather conditions. Your Audi vehicle is equipped with a phone preparation utilizing Bluetooth® interface to enable hands-free functionality [compatible mobile phones sold separately]. You will need a Bluetooth®-enabled mobile phone in order to utilize and maintain the latest navigation information available to us. These will be available for purchase from time to time at an additional cost. Consult your dealer or call 1-800-FOR-AUDI for details.

Safety & Security

Driver and front passenger advanced dual-stage airbag® supplemental restraints

Driver and front passenger seat-mounted side thorax airbag® supplemental restraints

Sideguard® head curtain airbags * for both rows of seats

Driver and front passenger seat-mounted side thorax airbag® supplemental restraints

Front passenger occupant detection for airbag® supplemental restraints

Airbags are supplemental restraints only and will not deploy under all crash circumstances. Always use safety belts and seat children in the rear, using restraint systems appropriate for their size and age.

Dry grip tires: a tire that is designed for dry traction in any season, with a lower aspect ratio that aids performance and handling: however, in order to avoid tire, rim or vehicle damage, it is important that the inflation pressure is regularly checked and maintained at recommended levels. Serious wheel and tire damage may result from incorrect tire pressures.

Powerful singleframe® grille with choice of front license plate input jack, SD® card slot for MP3 files, and speed-dependent volume control

Audi concert system with single CD player [MP3 capable], AM/FM radio, auxiliary radio/telephone/navigation display, auto-check, open door/deck lid indicator

Driver information system – trip computer, outside temperature, on automatic transmission models, leather and perforated Alcantara® S line sport seats, lumbar control for driver and passenger, sport suspension

Fully galvanized steel unibody with multistep anti-corrosion protection

Independent trapezoidal-link rear suspension with rigid subframe, stabilizer bar and individual, gas-charged coil springs/shock absorbers

Sideguard® head curtain airbags * for both rows of seats

Driver and front passenger seat-mounted side thorax airbag® supplemental restraints

Rear disc brakes

Brake assist – a system that automatically senses emergency braking and applies maximum power boost to reduce overall stopping distance

Three-pulse, touch-to-pass lane change feature in turn signal

Integrated LED daytime running lights

Tilting glass panel Panorama sunroof

Remote control for doors, deck lid and fuel door

Storage nets in back of front seats

Folding front center armrest with adjustable height

Eight-way power S5 sport front seats with integrated headrests

Leather seating surfaces

Interior lights in overhead console with front map lights

Shift paddles on steering wheel [Automatic transmission]

Chrome trim around exterior windows

Tilting glass panel Panorama sunroof

LED light sensor and interior lighting

Three-pulse, touch-to-pass lane change feature in turn signal

Automatic climate control

Glove box in front passenger side of dash panel

Dual rear cup holders

Power adjustable, auto-dimming and heated side mirrors

Instrument trunk release on driver’s door

Safety & Security

- Dry grip tires: a tire that is designed for dry traction in any season, with a lower aspect ratio that aids performance and handling: however, in order to avoid tire, rim or vehicle damage, it is important that the inflation pressure is regularly checked and maintained at recommended levels. Serious wheel and tire damage may result from incorrect tire pressures.

Rear disc brakes

- Brake assist – a system that automatically senses emergency braking and applies maximum power boost to reduce overall stopping distance

Three-pulse, touch-to-pass lane change feature in turn signal

- Three-pulse, touch-to-pass lane change feature in turn signal

Integrated LED daytime running lights

Tilting glass panel Panorama sunroof

- Full power steering
- Front disc brakes
- Driver and front passenger advanced dual-stage airbag®
- Driver and front passenger seat-mounted side thorax airbag®
- Sideguard® head curtain airbags * for both rows of seats
- Driver and front passenger seat-mounted side thorax airbag®
- Front passenger occupant detection for airbag®
- Airbags are supplemental restraints only and will not deploy under all crash circumstances. Always use safety belts and seat children in the rear, using restraint systems appropriate for their size and age.

**A5 Model Configurations**

- 2.0 TFSI® with six-speed manual transmission and quattro® all-wheel drive
- 2.0 TFSI® with six-speed Tiptronic® transmission and quattro® all-wheel drive

**Power and Performance**

- 2.0 liter turbocharged, DOHC in-line four-cylinder gasoline engine with FSI® direct injection, variable valve timing and Audi valvelift system
- Displacement: 2.0 liters [195.1 cu. in.]
- Bore: 3.37 in.   Stroke: 3.65 in.   Compression ratio: 12.5:1
- Horsepower: 265 hp @ 6500 rpm   Torque: 243 lb-ft. @ 6500 rpm
- 0-60 MPH in seconds: 5.8
- Top track speed*: 130 MPH
- Fuel economy estimate, city/highway ‡: 17/26 MPG

**A5 Model Configurations**

- 3.2 liter DOHC V6 gasoline engine with FSI® direct injection, variable valve timing and Audi valvelift system
- Displacement: 3.2 liters [195.1 cu. in.]
- Bore: 3.77 in.   Stroke: 3.65 in.   Compression ratio: 12.5:1
- Horsepower: 265 hp @ 4000-6000 rpm   Torque: 243 lb-ft. @ 6500 rpm
- 0-60 MPH in seconds - Manual: 5.8, Tiptronic®: 5.7
- Top track speed*: 130 MPH
- Fuel economy estimate, city/highway ‡: 17/26 MPG

**S5 Model Configurations**

- 4.2 FSI® with six-speed manual transmission and quattro® all-wheel drive
- 4.2 FSI® with six-speed Tiptronic® transmission and quattro® all-wheel drive

**Power and Performance**

- 4.2 liter DOHC V8 gasoline engine with FSI® direct injection, variable valve timing and intake manifold
- Displacement: 4.2 liters [256.3 cu. in.]
- Bore: 3.33 in.   Stroke: 3.65 in.   Compression ratio: 11.0:1
- Horsepower: 354 hp @ 6800 rpm   Torque: 325 lb-ft. @ 3500 rpm
- 0-60 MPH in seconds: 4.9
- Top track speed§: 155 MPH
- Fuel economy estimate, city/highway ‡: S5 six-speed manual: 14/22 MPG   S5 six-speed Tiptronic®: 16/24 MPG

---

1. Horsepower and torque figures shown are for vehicles equipped with U.S. EPA estimated fuel economy, city/highway. Actual performance may vary based on a variety of factors, including vehicle loading, weather conditions, and options, as well as driver behavior and habits. These figures were determined under controlled conditions in accordance with U.S. EPA standards and are not a measure of the performance of a vehicle driven on the road. Actual performance may be lower and may vary significantly based on the circumstances. Always wear your seat belt and drive responsibly. Never drive distracted or under the influence of drugs, alcohol, or medication.

2. Actual driving range will vary.

3. Top speed electronically limited to 130 MPH in the U.S. Obey all local speed and traffic laws.

4. Top speed electronically limited to 155 MPH in the U.S. Obey all local speed and traffic laws.

5. EPA fuel economy estimates are for comparison purposes only and not necessarily indicative of fuel economy to be obtained in actual driving conditions.
With so much to offer, there is only one place where you can experience it all.

To fully interact with Audi, visit us online at any number of our special sites. From configuring your next Audi, to learning about the latest technology, to experiencing our passion for performance and racing, we invite you to explore the rich, stimulating world that is uniquely Audi.

Model Specific Info Summary
Dive into detailed information on the models you are considering. Each model in the Audi lineup has dedicated pages providing information on technical specifications, design, performance, safety and technology features, as well as extensive multimedia galleries.

Audi Driving Experience
The Audi driving experience and the Audi sportscar experience are designed to not only offer you a very special track experience in an Audi, but to enthrall and then your passion for the technology that goes into every Audi vehicle.

Audi Experience
The experience section is your starting place for everything Audi. From an in-depth brand experience to a journey of our rich motorsports heritage or exclusive downloads, the online Audi Experience accommodates it all.

Technology Microsite
From theoretical beginnings, advanced technology has bloomed at the very heart of the Audi DNA. Contained in one convenient location, you will find great detail and demonstrations of many of our technologies.

See All Models
Browed from a remarkable array of exterior, interior, safety, and performance options to assemble your very own Audi. You can print, request a quote or take your document to the nearest Audi dealer.

Model Specific Info Summary

Audi Driving Experience

Audi Experience

Technology Microsite
Nearly 30 years ago, the notion of a car with permanent four-wheel drive was revolutionary. Audi called it quattro® and its benefits would set a new benchmark for driver confidence and performance. The simple, yet profound result of sending power to all wheels means that snow-covered mountain passes, rain-slicked highways and gravel-strewn rural roads are no longer encountered with apprehension. While on smooth dry roads, quattro® offers a level of performance unachievable by two-wheel drive cars.

The advantage of all-wheel drive was most apparent when Audi introduced quattro® to the World Rally Championship. quattro® seemed to defy physics with startling acceleration and remarkable traction. The result was an astounding 24 wins and a number of World Championships. If that wasn’t enough of an endorsement for quattro®, it was later deemed an “unfair advantage” and banned from road racing altogether after repeatedly dominating the field.

Today, in that same competitive spirit, quattro® all-wheel drive continues to be refined. In Audi vehicles with a longitudinal engine configuration, quattro® is essentially a mechanical system with a self-locking center differential and continuously variable torque distribution. quattro® instantly responds to wheel speed differences and dynamically adjusts power to the wheels with the best traction. It is supported by advanced electronic control systems that together offer numerous benefits over other all-wheel drive systems. Featuring a 40:60 rear torque bias, the latest version of quattro® offers sportscar-like performance and handling with uncompromised all-wheel drive traction.

The power of quattro® is its ability to inspire driver confidence, giving you traction when you need it, where you need it, regardless of road conditions.
Together the future is ours.

August Horch founded this company on one word: Progress. Back in 1909.

To us, it is taking what seems undoable and then doing it. It is discovering what no one else has bothered to discover.

It is turning skeptics into believers, and it is taking the thinking that wins on the racetrack and putting it on the road.

Relentlessly designing, innovating, engineering and racing for the past 100 years have yielded amazing progress in our quest for the Truth. And although the Truth is absolute, it is in a constant state of motion always revealing new limits and opportunities. For instance, what seemed improbable has become the standard as we have created a diesel engine so quiet, so clean, so efficient and so powerful we put it to the ultimate test competing in the 24 Hours of Le Mans…

winning three years in a row. But aside from walking away with trophies, we walked away with a deeper understanding of what to engineer into our cars for the street. The remarkable capabilities of TDI clean diesel power, the all-wheel drive confidence of quattro® and the increased power and efficiency of FSI® are but a few of those strands of DNA that have brought us that much closer to the Truth.

And it is that quest for the Truth that is behind every pencil line we draw, every calculation we make and every idea we deem not good enough. And although they may prove to be remarkable achievements in their own right, they represent a greater commitment to what is most important: Truth in Engineering.
Note: A word about this brochure. Audi of America, Inc. believes the specifications in this brochure to be correct at the time of printing. However, specifications, standard equipment, options and colors are subject to change without notice. Some equipment may be unavailable when your vehicle is built. Please ask your dealer for advice concerning current availability of standard and optional equipment and your dealer will verify that your vehicle includes the equipment you ordered. Vehicles in this brochure are shown with optional equipment. See your dealer for complete details on the new-vehicle limited warranty, twelve-year limited warranty against corrosion perforation and Audi 24/7 Roadside Assistance. (Roadside assistance coverage provided by Road America in the U.S. Certain conditions apply, see your dealer for details.)
