Key Attributes

Audi connect™ with online services*

Audi connect makes it easy to search for any point of interest on Google™. Plus, you can enjoy realistic Google Earth™ terrain imagery & even send destinations from any browser right to your Audi. This feature is included when Audi MMI® Navigation plus is ordered.

Audi adaptive cruise control* Available

Audi adaptive cruise control on the allroad helps the driver to take command over even more of the driving experience, as its long-range radar measures the distance to the vehicle ahead, sends its data to a computer that weighs the information against velocity and other road variables & applies the brakes as necessary. Once the road is safe to cruise, the allroad effortlessly accelerates back to its desired speed.

Bang & Olufsen® Sound System* Through an available 505-watt 14-speaker system perfectly integrated within your allroad, Bang & Olufsen remaps how you experience sound by transcending the limits of Audi technology. Audi offers an available system that remaps how you experience sound itself by automatically adjusting volume & timbre balance to changing ambient noise levels.

Audi side assist* Monitors the blind spot areas, as well as fast-approaching vehicles, at a range of about 150 ft to the rear of the car. If Audi side assist identifies another vehicle, it informs the driver via LED lights in the exterior mirror.

Audi drive select* Exclusive to Audi, this optional system provides advanced control of the dynamic steering, transmission shift characteristics and engine response. The system allows drivers to configure vehicle drive characteristics exactly to their liking with their choice of Comfort, Auto, Dynamic or Individual settings.

Audi of America Communications

The 2013 Audi allroad

HERNDON, Va., June 15, 2012 — The return of the iconic Audi allroad combines unmatched all-weather capabilities with the driving dynamics and style that are unique to Audi. Following a seven-year hiatus, the allroad makes its long-awaited return in a package that improves on the original allroad in very significant ways. It is faster and more fuel efficient than its predecessor and benefits from all of the advantages of being part of the ever-refined Audi product family. It combines what premium buyers are looking for in a capacious and rugged crossover with the refinement of an executive sedan.

Performance

The allroad is powered by the 2.0 TFSI turbocharged and direct-injected, four-cylinder engine that delivers 211 hp and 258 lb-ft of torque and is paired with a fuel efficient eight-speed automatic transmission. Audi engineers have tuned the allroad to deliver plenty of torque at the right times for effortless passing maneuvers accelerating from zero to 60 mph in 6.5 seconds. Of course, legendary quattro all-wheel drive is standard.

The allroad utilizes a new electromechanical steering system that saves weight and improves fuel economy – part of the Audi ultra philosophy of optimizing materials while at the same time improving performance.

The vehicle lends a neutral feel in handling, neither too taut nor sluggish on any surface. The allroad is at home on today's urban roads and gravel driveways alike, and a reprogrammed Electronic Stability Control assists drivers of the allroad through inclement weather as well as all kinds of other driving conditions.

Exterior

The Audi allroad features a unique, Singleframe® grille design with vertical chrome struts and angled upper corners, stainless steel skid plates and side sills, contrasting body trim and alu-optic aluminum raised roof rails. Matte-finished lower bumpers and wheel arches that signify the vehicle's utility credentials are standard, while a full paint finish is available in Glacier White, Ice Silver and Phantom Black.

Audi

The car also expresses the new Audi design theme of sleek headlights, and in versions equipped with xenon-plus lamps, allroad offers the brand's signature new LED lighting design. Circular fog lights finish off the front of allroad, and circular dual-exhaust openings polish up the rear.

The exterior dimensions demonstrate that the allroad can handle serious demands from the weather and other unexpected circumstances, on the road or away from it. It is 0.5 inches wider and has 1.5 inches more ground clearance than its cousin the A4 Avant. With a full 7.1 inches of ground clearance, the allroad is designed to meet the outdoor lifestyle needs of its customers.

The vehicle also boasts a taller profile and 18-inch wheels standard (with 19-inch wheels optional) to ensure comfort even over rough ground. Altogether, the Audi allroad exterior design and functional stance comprise a compelling offering for premium buyers who want a car that is capable off-road and commanding in urban environments.

Interior

The allroad beckons drivers inside for the kind of sensible performance, advanced technology and advanced comforts that are Audi hallmarks.

Spaciousness is one of this vehicle's best traits. Compared to its predecessor, the longer wheelbase makes for a more comfortable ride, while improved seating and packaging yield more headroom for front passengers. The wagon provides 27 cubic feet of cargo space and an ample 50 cubic feet of carrying capacity with the rear seats folded down. An electric tailgate is available to ease entry when placing items into the rear cargo area.

The standard panoramic sunroof adds to the cabin's spacious feeling. Interior refinements include eight-way power seats, optional heated front seats, a choice of three wood inlays, and a 505-watt Bang & Olufsen Sound System with 14 speakers, which automatically adjusts volume and timbre to ambient noise in the car. The Sport Interior package for allroad features twelve-way power front sports seats and a three-spoke steering wheel with shift paddles.

Audi

Driver Assistance

The allroad is loaded with features that help the driver navigate the road more safely and experience more enjoyment behind the wheel.

These advanced features include adaptive front lighting and Audi side assist, which uses radar to monitor the space behind and beside the car and detects any vehicles in neighboring lanes.

An optional Driver Assistance package adds a cluster of features that enhance this aspect of allroad technology even more. They include Audi adaptive cruise control, which keeps allroad at a constant distance from the vehicle ahead of it, and dynamic steering, which varies the effort required as well as the steering ratio at different speeds to maintain optimum driving control and feel.

Audi connect

Audi connect enables first-to-market Google Earth integration, which redefines the navigation experience. The realistic panoramic views and high-resolution 3D satellite and aerial imagery provide drivers with a better navigation experience. Audi connect with Google Earth also improves visual orientation with a “camera zoom” feature that allows closer views of surroundings or destinations. Added to the high-resolution of Google Earth imagery is an overlay of street mapping data provided through Audi MMI Navigation plus and real-time traffic information available through a SiriusXM™ Traffic subscription (now includes a four year SiriusXM Traffic subscription).

Audi connect also provides an industry-first factory vehicle integration of Wi-Fi® service. This unprecedented mobile hot spot capability for passengers allows connections for up to eight Wi-Fi capable devices and permits passengers to connect to work or other networks. The Google Voice Local Search also is a first in Audi connect, and it enables more intuitive requests for destinations of interest while also helping drivers to keep their focus on the road. Other features include real-time information, such as weather, fuel price updates, and streaming news feeds.

The allroad combines iconic design with exceptional performance, efficiency and technology. It is faster and more fuel efficient and brings new levels of technology to the segment through Audi connect, which makes it a worthy successor to an icon.

Equipment

Standard & Optional Equipment

Engine / Transmission / Suspension / Wheels		allroad
	ULEV II/OBD II certification	■
	2.0 liter TFSI direct-injection I4 engine with 211 hp, DOHC, & Audi valvelift system	■
	Eight-speed Tiptronic automatic transmission with sport program & manual shift mode	■
	quattro permanent all-wheel drive system with asymmetric/dynamic torque distribution (torque split 40:60)	■
Brakes	ABS (Anti-lock brake system) with EBD (Electronic Brake Force Distribution)	■
	Front ventilated disc brakes	■
	Rear solid disc brakes	■
	Electromechanical emergency brake (switch located in center console) with drive-off release function	■
	Hydraulic Brake Assistant, automatically senses emergency braking & applies maximum available power boost to reduce overall stopping distance	■
	Raised suspension, rough road calibration (allroad suspension)	■
	Front five-link independent steel spring suspension	■
	Rear trapezoidal-link independent steel spring suspension	■
Wheels & Tires	8.0Jx18 / Five-arm-Rotor-design wheels with 245/45 all-season tires, allroad exclusive	■
	8.0Jx19 / Five-arm-Structure-design wheels with 245/40 summer tires, allroad exclusive	□
	Tool kit & jack	■
	Temporary inflatable spare tire	■
	Tire pressure monitoring system- in-direct measuring	■
	Fully galvanized steel unibody construction with aluminum hood	■

Exterior		allroad
	Audi Singleframe grille in Platinum Gray with vertical chrome struts with/without license plate holder	■
	Halogen headlights with halogen daytime running lights	■
Lighting	Audi xenon plus headlights with automatic self-leveling & LED daytime running lights	□
	Adaptive xenon plus headlights with self-leveling & LED daytime running lights & static cornering lights	□
	Automatic headlights	■
	Headlight washing system	■
	Front fog lights located in lower bumper	■
	LED taillight technology with rear fog lights	□
	LED perimeter lights in exterior mirrors, activated when door unlocked & dark outside - controlled by the light sensor	■
	Automatic light switch controlled by light sensor, coming home/leaving home function	■
	Daytime running lights, user programmable	■
	"Three blink" touch-to-pass lane change feature in turn signal	■
Mirrors	Power-adjustable heated side mirrors	■
	Power folding, power-adjustable, auto-dimming, heated side mirrors with memory	□
	Body-color outside mirrors; heated with LED turn signal repeaters with fiber optic technology	■
	2.5 mph (Federal Standard) front & rear bumpers	■
	Anodized aluminum window surround	■
	Anodized aluminum roof rails, allroad exclusive raised design	■
	Heated windshield washer nozzles	■
	Lower bumper & door trim in body color paint finish	□
	Dual exhaust pipes, finished tips (one on each side)	■
	Widened wheel arches & sill extensions in contrast paint, stainless steel front & rear skid plates	■
	Metallic/pearl/crystal effect paint	□
	Roof-mounted SiriusXM Satellite Radio antenna	■
	Nomenclature: allroad on rear deck lid, right center Four rings on top center of tailgate & top-center of Singleframe grille quattro: rear tailgate - right center, under engine designation dashboard - passenger side	■

- = Standard
- = Optional
- = Not Available

Audi

Standard & Optional Equipment

Interior	allroad	
Illumination	Front & rear reading lights (two in front / two in rear headliner)	■
	Red ambient LED lighting in overhead console for front center console illumination	■
	Illumination for interior door release handles & air vent controls	■
	Auto dimming interior mirror with digital compass	□
	Front & rear footwell lighting using LED technology	■
	Front sliding sun visors with illuminated vanity mirror for driver & front passenger	■
	Front & rear floor mats with fastening mechanism for front mats	■
Velour carpeting	■	
Power Features	Power tailgate with opening from driver door switch or remote control, closing button on tailgate, opening height programmable to individual preference	□
	Power central locking system with radio-operated key fob remote control for doors tailgate & fuel door with selective unlocking: - Convenience open & close feature for windows & sunroof - Master switches located in driver & front passenger doors, includes LEDs to signal when vehicle is locked - Central locking can be programmed in Audi MMI to automatically lock when vehicle reaches 8 mph. Vehicle then automatically unlocks when engine is turned off	■
	Power windows: - Driver controlled lock out switch for rear power windows - Power retention (until either front door is opened) - "One-touch down" & "one-touch up" for all windows - "Pinch-protection" for all windows (reverses window at force >100N)	■
	Retained accessory power – allows use of various electronic features (radio / CD / windows / etc.) after key is removed from ignition. Duration varies depending on energy management system. Ends if front door(s) opens	■
	Deep tinted, two-panel panorama sunroof with power sunshade: - First panel retracts / tilts; second panel fixed - Controls in overhead console front - Pinch protection	■
	Interior tailgate release on driver's door (release also with soft touch & remote key fob)	■
	Manual side shades in rear doors	□
	Four 12V power outlets: - In front ashtray - In front center console storage bin (underneath armrest) - For rear seat passengers located at rear of front center console - In cargo area	■
	Four cup holders (two front / two rear retractable cup holders in fold-down rear center armrest)	■
	Four bottle holders (one in each door)	■
Smoker package (ashtray and power outlet in front of shifter)	■	
One rear ashtray, located in rear of front center console, beneath power outlet	■	
Storage	Comprehensive storage concept, including: - Coin storage next to shifter / in Audi MMI area (six coins) - Grocery bag hooks in trunk - Map storage net pockets on front seatbacks - Glovebox with an air-conditioned vent for cooling - Storage in front doors including 1L bottle holders	■
	Folding & sliding front center armrest with adjustable height & storage underneath	■
	Illuminated locking glovebox with air-conditioned vent for cooling	■
HVAC	Fully automatic single zone climate control system, combined pollutant and pollen filter, automatic recirculated-air functions	■
	Fully automatic dual zone climate control w/ separate air distribution controls for driver & front passenger, combined pollutant & pollen filter, automatic recirculated-air functions; air quality, humidity, & sun angle sensors	□
	Three-zone climate control	□
	Rear seat HVAC vents in rear of front center console & under each front seat & temperature variation dial	□
Electric rear window defogger with automatic timed shut off feature	■

Audi

Standard & Optional Equipment

Technology	allroad
Two master ignition keys with remote control & emergency key	■
Audi adaptive cruise control – Includes Audi pre sense front. 20-95mph operation with coast, four distance settings, resume & accelerate features. Stalk on steering column, speed shown in driver information display, with enhanced braking guard (ability to initiate a full-stop below 30 km/h)	□
Anti-theft vehicle alarm system & immobilizer with blinking theft deterrent light in driver's door	■
Audi advanced key – keyless start, stop & entry	□
Audi drive select	□
Audi parking system plus (includes rearview camera & rear acoustic warning system)	□
Audi side assist – Lane change assistant, operates at speeds above 30km/h, visual warnings located in exterior mirror housings. Radar technology located behind rear bumper (not visible). Can be turned off	□
Electronic active cruise control with coast, resume & accelerate features. Stalk on steering column, speed shown in driver information display	■
Extended range radio frequency remote locking system with security “rolling code” feature, remote tailgate opening system & panic function, also activates interior lights & alarm system	■
HomeLink – Three channel remote transmitter / in overhead console	□
MOST optical bus connecting all infotainment electronics	□
Rain/light sensors for automatic windshield wipers & headlights	■
Rear window wiper & defroster (includes washer system)	■
Windshield wipers with four-position adjustable rain sensor rate	■

- = Standard
- = Optional
- = Not Available

Audi

Standard & Optional Equipment

Infotainment	allroad
Audi concert system with one CD player (MP3 capable), AM/FM radio, auxiliary input jack, SD card slot for MP3 files & speed-dependent volume control	■
Audi connect with six-month trial subscription* with Audi MMI Navigation plus only	□
Audi MMI Navigation plus system: with TFT color, WVGA, seven-inch display screen, control knob w/ joystick & buttons in center console. Operates climate control, central locking, instrument cluster, vehicle diagnostics, cellular phone, navigation, CD & radio functions. (single CD/DVD player)	□
Audi MMI Radio plus system for controlling Infotainment / Climate / Car Setup (with 6.5-inch color screen)	■
Audi music interface with iPod integration includes one cable for iPod connection	□
Audi premium sound system with ten speakers & single CD player with MP3 playback capability	■
Audi six-channel DSP extended sound system with ten speakers including subwoofer, 180W sound system	■
Aux-in located in center console (deleted if Audi music interface selected)	■
Backlit instrument cluster with automatic brightness control: - tachometer, speedometer, digital clock with date, fuel gauge, coolant temperature gauge, white illumination with red pointers	■
Bang & Olufsen Sound System with 14 speakers & 505 watts (includes Dolby Digital 5.1 & noise compensation)	□
Bluetooth streaming audio with Audi MMI Navigation plus only	□
Bluetooth wireless technology preparation for mobile phone	□
Clock in the Audi MMI (redundant clock & date in the driver information display)	■
Eight color driver information center: (comes automatically with Audi MMI Navigation plus system) - Five-function trip computer (Fuel range, average fuel mileage, current fuel mileage, average speed, elapsed time & digital trip odometer) operated by toggle switch at end of windshield wiper stalk - Outside temperature display - Digital speed display - Radio/telephone display - Active Auto Check system with speed warning device - Pictogram display for open door & deck lid - Efficiency Program	□
HD Radio™ technology	□
In-dash single CD player (+DVD capability w/ Audi MMI Navigation plus)	■
SD card slot w/ 32GB capacity (dual slots if Audi MMI Navigation plus selected)	■
SiriusXM Satellite Radio with 90-day trial subscription	■
SiriusXM Traffic with four year subscription	□
Voice control system (controls cellular phone, CD, radio & navigation), includes speech-to-text engine	□

- = Standard
- = Optional
- = Not Available

*Audi MMI Navigation plus depends on signals from the worldwide Global Positioning Satellite network. The vehicle's electrical system and existing wireless and satellite technologies must be available and operating properly for the system to function. The system is designed to provide you with suggested routes in locating addresses, destinations and other points of interest. Changes in street names, construction zones, traffic flow, points of interest and other road system changes are beyond the control of Audi of America, Inc. Complete detailed mapping of lanes, roads, streets, toll roads, highways, etc., is not possible, therefore you may encounter discrepancies between the mapping and your actual location. Please rely on your individual judgment in determining whether or not to follow a suggested Audi MMI Navigation plus route. Periodically mapping updates will be available for purchase at an additional cost. Consult your dealer or call 1-800-FOR-AUDI for details.

Audi

Standard & Optional Equipment

Safety / Security	allroad
ABS (Anti-lock Brake System) with EBD (Electronic Brake-pressure Distribution) & Audi brake assist	■
Central locking system	■
Driver & front passenger advanced dual-stage airbag supplemental restraints	■
Driver & front passenger seat-mounted side thorax airbag supplemental restraints	■
Electromechanical parking brake	■
ESC (Electronic Stability Control). System includes ABS / EBD / EDL / ASR & off-road mode	■
Front three-point safety belts with automatic pretensioning, height adjustable upper mounts & force limiters	■
Front passenger occupant detection - for airbags	■
Hydraulic Brake Assist, automatically senses emergency braking & applies maximum available power boost to reduce overall stopping distance	■
If crash sensor is activated, the following will happen automatically: central locking automatically unlocks doors, interior lighting is switched on, fuel pump & engine are switched off, hazard warning lights are switched on	■
Impact protection, including reinforced high strength steel/aluminum crossmembers, reinforced bumpers & rigid occupant cell	■
Integrated child door locks in rear doors, activated using a key in side of door near latch area	■
Lower Anchors & Tethers for CHildren (LATCH) provisions in rear seats	■
Pinch protection for all windows (reverses window at force >100N)	■
Rear passenger (outboard) side airbag supplemental restraint system	□
Rear safety belts with Automatic Locking Retractor (ALR) for securing a child seat	■
Rear three-point safety belts with automatic pretensioning	■
Seatbelt belt reminder for driver & front passenger	■
Sideguard® head curtain airbags for both rows of seats	■

- = Standard
- = Optional
- = Not Available

Airbags are supplemental restraints only and will not deploy under all crash circumstances.
Always use safety belts and seat children only in the rear, using restraint systems appropriate for their size and age.

B. 8.0Jx19 Five-arm-Structure-design,
allroad exclusive
245/45 98Y XL summer tires

- = Standard
- = Optional
- = Not Available

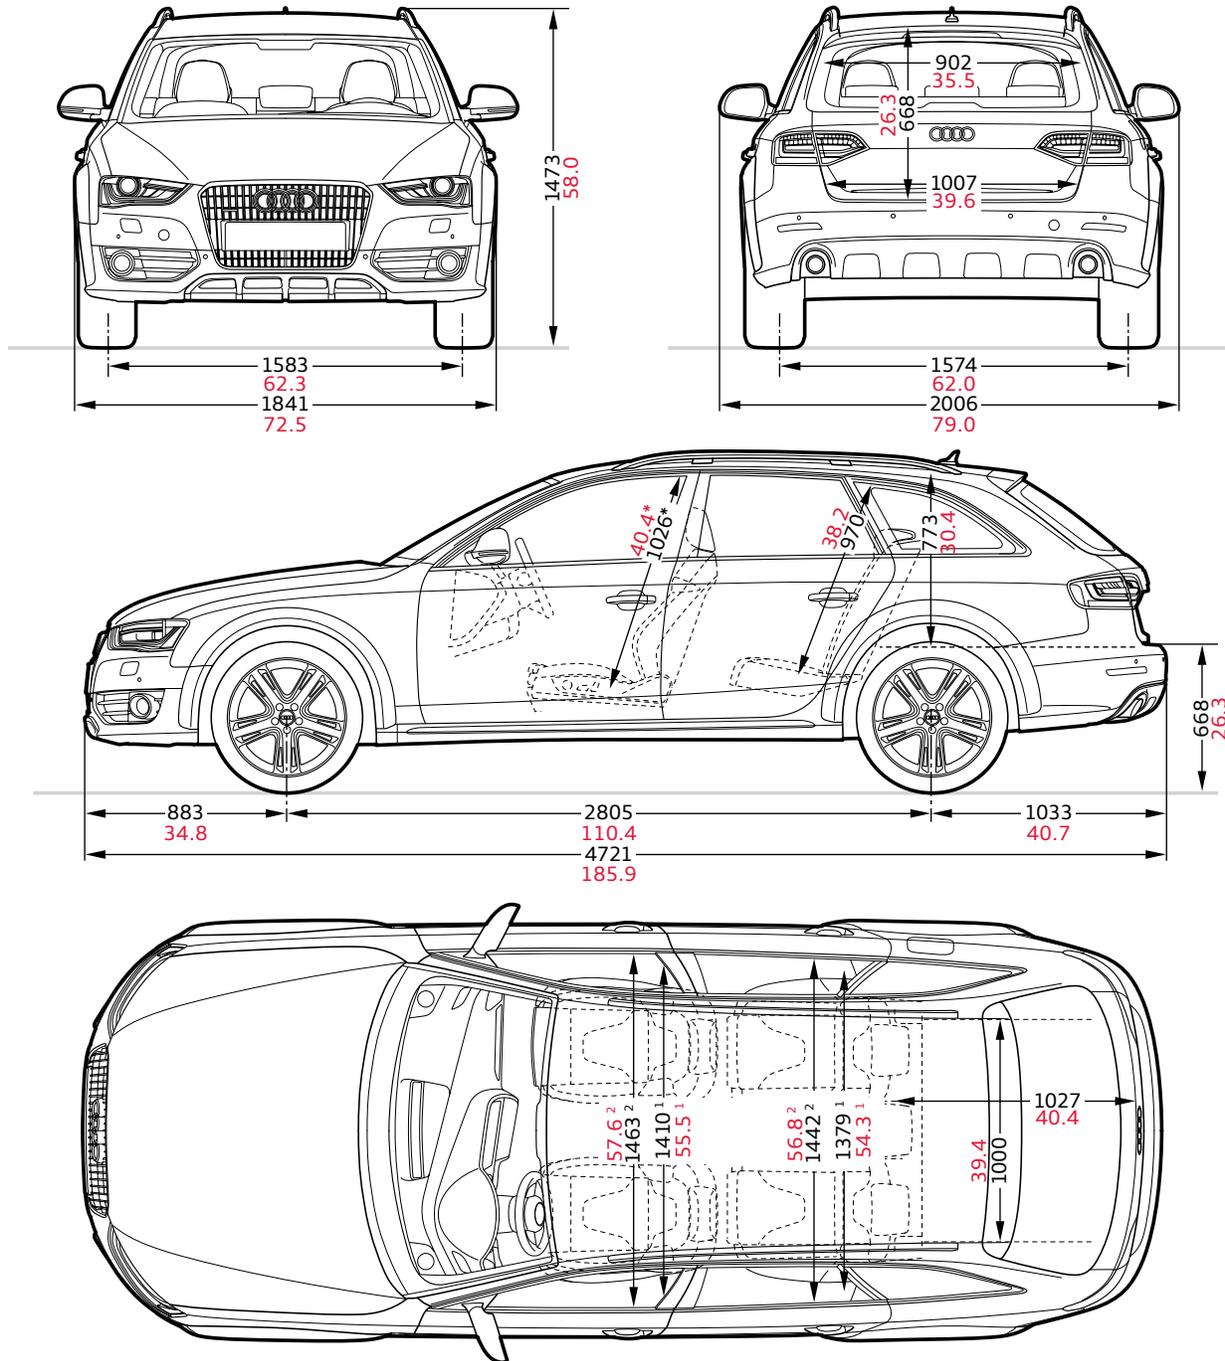

¹ Tires are supplied and warranted by their manufacturer. High-performance tires are designed for optimum performance and handling in warm climates. They are not suitable for cold, snowy, or icy weather conditions. If you drive under those circumstances, you should equip your vehicle with all-season or winter tires, which offer better traction under those conditions. We suggest you use the recommended winter or all-season tire specified for your car or its equivalent. These high-performance tires also have a lower aspect ratio that aids performance and handling; however, in order to avoid tire, rim or vehicle damage, it is important that the inflation pressure is regularly checked and maintained at optimum levels. Please also remember in making your selection that, while these tires deliver responsive handling, they may ride less comfortably and make more noise than other choices. Finally, these tires may wear more quickly than other choices.
